- very good (A) 5.0
- good plus (B) 4.5
- good (C) 4.0
- satisfactory plus (D) 3.5
- satisfactory (E) 3.0
- unsatisfactory (F) 2.0

The above grading scheme is used for giving credits for classes, determining the grade for the diploma thesis, assessing the thesis defence and questions asked during the defence.

The diploma examination takes place in front of a commission appointed by the Dean, which consists of at least three persons: the chairperson, the supervisor and the reviewer.

The diploma examination consists in a student defending the diploma thesis and answering at least three questions. The grade for the diploma examination is the arithmetic mean (rounded off to two decimal places) of the grade for the diploma thesis defence and the partial grades obtained for answering all the questions asked. The diploma examination is considered passed if the grade for the diploma thesis defence and most of the other partial grades are positive.
